PROFESSIONAL SUMMARY

SKILLS

Python, SQL, MySQL, Pandas, NumPy, Scikit-learn, Data Modelling, SHAP (Explainable AI), Statistical Analysis, Trend Forecasting, React.js, JavaScript (ES6+), Chart.js, SHAP Visualizations, Dynamic Dashboards, Data-driven UI, Report Design, PostgreSQL, MongoDB, Redis, SQL Queries, Indexing, Query Optimization, JPA/Hibernate ORM, ACID Transactions, OOP, LLD, HLD, REST APIs, Spring Boot, Flask, FastAPI, Node.js, Docker, Git, CI/CD, Maven, Agile, LLMs, RAG Pipelines, LangChain, FAISS, TensorFlow, OpenAI API, Celery, Automated Workflows, AWS (EC2, Amplify, CloudWatch), Firebase, Postman, Swagger, GitHub, Alteryx (basics)

EXPERIENCE

AI-ML Virtual Internship at AICTE EduSkills & AWS Academy

April – June 2025

- Performed data analysis and modelling on real-world datasets, generating actionable business insights relevant to web application performance.
- Designed automated data processing workflows using Python, translating raw data into structured insights for stakeholders, supporting data-driven web development decisions.
- Collaborated with team members on product delivery engagements, demonstrating proactive learning and problem-solving skills; maintained professional relationships.

Software Engineering Virtual Experience (Forage) at JPMorgan Chase & Co.

October 2025

- Contributed to software engineering product development, designing, building, and deploying backend services for web applications, solving real business problems for clients.
- Maintained professional stakeholder relationships; participated in team stand-ups, code reviews, and documentation, demonstrating strong communication and collaboration skills.
- Applied OOP principles and SQL database concepts to build reliable, scalable web applications and systems, demonstrating responsibility and teamwork.

PROJECTS

AI-Driven Decision Intelligence Platform

Tech: Python, FastAPI, React.js, LangChain, FAISS, SHAP, Celery, Redis, PostgreSQL, AWS EC2, Firebase

Freelance – Gramflix | Referral & Wallet System

Tech: Java, Spring Boot, React.js, MongoDB, Redis, Docker, JWT, Spring Security, PostgreSQL, AWS EC2, Amplify

EDUCATION

B.Tech ECE

JIS College of Engineering (2023 – 2027)

Intermediate

S.S College Jehanabad (2022)

Matriculation

Kainat International School (2020)
