PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in **Web Development** and **Software Development**, building and deploying **web applications** using **Java**, **Python**, **React.js**, **HTML**, **CSS**, and **JavaScript**. Proficient in backend technologies like Spring Boot and database management...

TECHNICAL SKILLS

Java, Python, JavaScript, SQL, MySQL, Dart, Bash, React.js, Next.js, Flutter (BLoC), Redux, Tailwind CSS, Bootstrap, i18n, Spring Boot, Node.js, Express.js, REST APIs, Microservices, API Gateway, Kafka, MongoDB, PostgreSQL, AWS (EC2, Amplify), Firebase, Docker, Git, GitHub, CI/CD, Maven, JWT, Spring Security, BCrypt, RBAC, OTP Auth

WORK EXPERIENCE

Software Engineering Virtual Experience (Forage)

October 2025

JPMorgan Chase & Co.

- Explored REST API integration and event messaging through hands-on **Software Development** simulation tasks, relevant to **web applications**.
- Participated in backend workflow implementation and **collaborative code review** activities, gaining experience in writing clean and maintainable **code**.

AI-ML Virtual Internship

April – June 2025

AICTE EduSkills & AWS Academy

- Gained exposure to **Python**-based data processing and cloud-based ML workflow concepts through hands-on virtual **internship** tasks.
- Explored machine learning pipelines and data preprocessing, relevant to **optimization** and data handling in **web applications**.

PROJECTS

AI-Driven Decision Intelligence Platform

Python, Flask, Flutter, LangChain, LLMs, RAG, PostgreSQL, AWS EC2, Firebase, Groq API

- Developed an AI-powered decision intelligence **web application** utilizing LangChain, REST APIs, and LLMs for forecasting and recommendation workflows.
- Engineered modular **Python** backend workflows, integrating Groq API for inference and supporting flexible AI-driven analysis.
- Designed and implemented full-stack architecture with JWT-secured REST APIs and Flutter BLoC mobile & **web frontend**, demonstrating end-to-end **Software Development** ownership.

Freelance – Gramflix | Referral & Wallet System

Java, Spring Boot, Next.js, MongoDB, Docker, JWT, Spring Security, AWS EC2, AWS Amplify

- Developed a multi-tier referral and earning engine using **Java** Spring Boot, implementing real-time wallet crediting and milestone tracking for a **web application**.
- Built robust JWT + Spring Security authentication and a digital wallet system with full audit trails, enhancing **user experience** for 180+ active users.
- Deployed backend services using Docker on AWS EC2 and frontend on AWS Amplify, ensuring **optimal performance** and scalability for the **web application**.

EDUCATION

B.Tech ECE - JIS College of Engineering (2023 – 2027)

Intermediate - S.S College Jehanabad (2022)

Matriculation - Kainat International School (2020)
